Dimensions

Masterchef

Aga Masterchef offers a gas or ceramic hotplate, electric grill, and two large ovens. With a choice of natural gas or LPG (propane or butane) Hob.

The freestanding Masterchef has been designed to occupy a 1000mm space at the same height and depth of standard kitchen units. It is fitted with four adjustable wheels and two front feet - for levelling installation and mobility during cleaning. It is also recommended that installation is performed by a qualified engineer.
